

ARTISAN®

20 TON HYDRAULIC "CLICKER"

*"Value, Style,
&
Performance"*

The ARTISAN® model 200-B is a 20 Ton Hydraulic Die Cutting Machine used to cut small parts out of Leather, Vinyl, Rubber, Paper, Plastic, Wood Paneling, Canvas, Light Metals and many additional types of materials.

As shown, a custom "Die" is placed over the leather or material, the swinging cutter arm is placed over the die, then the two handle switches are depressed and the arm "punches" the die through the leather cutting out a perfect pattern every time.

The ARTISAN® 200-B Clicker has a cutting bed size of 900mm by 450mm. (Approximately 35" x 18") The swing-arm is designed to pivot over the cutting bed and is 350mm by 450mm (14" by 18").

The clicker is powered by a 1 horsepower 220 volt, single phase electric motor and develops 20 tons of pressure over the cutting dies.

Some features of the machine are safety starting switches, adjustable stroke length, and an adjustable delay setting for the cutting head.

As with most hydraulic "clickers", the machine is shipped without the necessary oil. Before operating the machine, you must add 12.5 gallons of hydraulic oil. Oil must be obtained locally.

Custom made Dies are ordered separately and are not included. Several sizes of optional cutting boards are available.

Features: 900mm X 450mm Cutting Board.
Dual Button "Dead Man" Starting Switches.
12.5 Gallons Hydraulic Oil Capacity.
Solid State Circuitry.
Adjustable Floor Leveling Feet.
Roller Wheels for Moving the Machine.
220 volt, Single Phase 50/60 HZ.
Net Weight (less oil) 1350 Lbs.
